

RIF PROTON

Proton 4000W MSRP starting at \$4,761**

The **Proton by RIF** is built to erase limits. Designed for riders who refuse to let terrain dictate their ride, the **Proton Pro 4000W** delivers explosive power, precision handling, and true off-road capability. Protons are built to order to give you the freedom to choose the right set up for you. With a **freewheel hub design** and a total weight of just **59 lbs**, Banshee frame blends raw performance with efficiency, creating one of the most capable high-performance e-bikes on the market.

The Protone has multiple spec options to choose from.
